gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Over Thirst Years ago Lyon's Katharmon you the Hair was first placed in the market by Professor E. Thomas Lyon, a graduate of Princeton College. The name is derived from the Greek, "Kathino," signifying to decaye, purify, equiverate, or resore. The favor it has received, and the popularity it has obtained, is unprecedented and incredible. It increases the Growth and Brautri of the Ham. It is a delightful dressing. It eradicates Dandruff. It prevents the Hair from turning gray. It keeps the head cool, and gives the hair a rich, soft, glossy appearance. It is the fame in Quantity and Quality as it was over a Quantity of Country Stores at only Fifty Cents per Bottle.

zens, of all classes, establishes the fact, that Cherry Pectorial will and does relieve and cure the ufflicting disorders of the Throat and lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organ yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute As a remedy, it is adequate, ou which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not numbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Chenny Prectorate is invaluable; for, by its timely use beset the Throat and Chest of childhood, Christer Pectronat, is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordi-nary colds, securing sound and health-restoring sleep. No one will suffer troublesome Infin-enza and painful Bronchitis, when they know how easily they can be cured. Originally they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
